ROCK COUNTY LEADS IN HORSE BREEDING

Large Number of Clydesdale Breeders Belong to County Horse Breeders' Association.

Rock county is known as the Clydesdale breeding center of Wisconsin, and its champion horses of that breed have won many honors at fairs and exhibitions from one end of the country to the other. Percherons and Standard Breds are also raised in large numbers here.

The Rock County Horse Breeders' Association, with James Van Etta, Lima, president, is a constant source of inspiration and assistance to the industry, and includes in its membership some of the leading horse breeders in the Northwest.

According to the latest report of the department of horse breeding, University of Wisconsin, there are now 52 pure bred and 27 grade and scrub stallions used for breeding purposes in the county, as against 41 pure bred and 40 grade and scrub stallions in 1907, when the first reliable figures regarding stallion enrollment were available.

Wisconsin was the first state in the country to adopt a systematic plan for the improvement of horse breeding through the elimination of grade and scrub sires. The work is in charge of Dr. A. S. Alexander of the college of agriculture, University of Wisconsin, who reports that about 55 per cent of all the stallions used for breeding purposes in the state are pure bred. In 1907 65 per cent of the total number were grade and scrub.

The horsemen of this county who are helping the cause of better breeding by keeping pure bred sires are: Omer Amundsen, Beloit; J. B. Atwood and Sons, Racine; H. R. Bartlett, Beloit; E. L. Benedict & W. T. Moore, Beloit; G. L. Bogardus, Janesville; E. Bornum, Janesville; John Cooper, Clinton; C. E. Crandall, Milton; J. C. Ellis & Sons, Evansville; James Gardner, Janesville; J. B. Gorey & J. A. Houghton, Brookfield; J. H. Greene & Son, Clinton; H. H. Huggins, Janesville; A. H. Huggins, Beloit; H. H. Huggins, Evansville; John Juman, Janesville; Andrew Johnson, (late E. H. Ericson), Janesville; D. E. Latta, Clinton; Adam Linschmeier, Evansville; Magolia & Center Horse Co., Care G. Townsend, Evansville; C. C. Maxwell, Milton; J. C. W. Maxwell, William Mills, Brookfield; John Morgan, Beloit; J. C. Nichols, Janesville; Harvey Pool, Beloit; J. S. Putnam, Janesville; Ransom Bros., Avon; William Schmidt, Clinton; Joseph Sennet, Beloit; Joseph Sennet, Evansville; A. B. Timpany, Janesville; James Van Etta, Lima; Mrs. W. W. Ware, Evansville; F. P. D. A. R. MEMBERS ARE ENTERTAINED

Mrs. W. T. Sherer and Mrs. A. E. MaGee Hostesses at Apollo Hall Tuesday Afternoon.

Mrs. W. T. Sherer and Mrs. A. E. MaGee were hostesses to members of Janesville chapter of the D. A. R., at Apollo hall Tuesday afternoon last. The hall was tastefully decorated with flags, rugs and palms and a delightful program and the regular routine of business were over, a delicious luncheon was served by the hostesses.

Mrs. J. G. Rexford gave a very interesting account of the state conference held at Marshfield, Oct. 19 and which she attended. She spoke of the proposed adoption of the state constitution, which was presented by State Regent Mrs. Humes, and its final acceptance.

The welfare work of the chapter is to be carried on the same as last year, that of making complete family outfits for the poor of our city, to be used by the city nurse whenever she is called, or to be taken into homes where it has been impossible to provide for the new baby. This work has proven of such benefit that the chapter feels it can do no better mission for the city. Donations of bedding, clothing, adoption will be gratefully received by the welfare committee, of which Mrs. T. S. Nolan is chairman. These donations will add much to the comforts, which the outfits will bring to mothers.

VAGRANT IS SENTENCED FOR A THIRTY DAY TERM

William Morris, formerly of Milwaukee, was sentenced to thirty days under the commitment law in the municipal court this morning when he pleaded guilty to the charge of drunkenness and vagrancy. Morris was arrested for "panhandling" on Main street by Patrolman Charles Handy.

TURN OVER TIME.

When Nature Hints About the Food. When there's no relish to food and all that one eats doesn't seem to do any good then is the time to make a turn-over in the diet, for that's Nature's way of dropping a hint that the food isn't the kind required.

For a number of years I followed railroad work, much of it being office work at a trying nature. Meal times were our busiest and eating too much and too quickly of food such as is commonly served in hotels and restaurants, together with the sedentary habits, were not long in giving me dyspepsia and stomach trouble which reduced my weight from 205 to 160 pounds.

"There was little relish in any food and none of it seemed to do me any good. It seemed the more I ate the poorer I got and was always hungry before another meal, no matter how much I had eaten."

"Then I commenced a trial of Grape-Nuts food, and was surprised how a small saucer of it would arouse me along, strong and with satisfied appetite, until the next meal, with no sensations of hunger, weakness or distress as before."

"I have been following this diet now for several months and my improvement has been so great all the others in my family have taken up the use of Grape-Nuts with complete satisfaction and much improvement in health."

"Most people eat hurriedly, have lots of worry, thus hindering digestion and therefore need a food that is pre-digested and concentrated in nutriment."

There's a Reason.

ORDERS AN INQUIRY INTO STATE SCHOOLS HOG PRICES STILL ON DOWNWARD GRADE

Investigation on Part of Board of Control Will Begin at School for Deaf at Delavan.

(SPECIAL TO THE GAZETTE.)
Delavan, Wis., Nov. 11.—The state board of control today began its investigation of the state school for the deaf at this city, following an order issued by Governor E. L. Phillip that the inquiry be conducted into the management of all the charitable and penal institutions in the state. Former Governor J. O. Davidson and George Harris of the board of control are here to begin work.

Announcement of the proposed investigation was made by Governor Phillip in an address in this city last evening. The governor was accompanied by J. O. Davidson, speaker of the assembly, who arrived from Lake Koshkonong, where they had been enjoying a hunting trip, to speak before the Delavan Civic club.

Delavan visit was made at the request of E. W. Walker, superintendent of the school for the deaf for the last fifteen years. Mr. Davidson would not say what the inquiry might develop, nor would he estimate how long it might last.

The tuberculosis camp at Wales will be the next institution for investigation. The board has supervision over the following schools and houses of correction, which are in line for a visit from the board members:

Mendota—State hospital for insane. Winnebago—Northern hospital for insane.

Delavan—School for deaf.

Janesville—School for blind.

Wauchesa—Industrial school for boys.

Waupun—State prison.

Sparta—Public school for dependent children.

Chippewa Falls—Home for feeble minded.

Green Bay—State reformatory.

Wausau—State tuberculosis sanatorium.

Waupun—Hospital for criminal insane.

Milwaukee—Workshop for the blind.

Walker Refused to Resign.
It is stated that Superintendent Walker of the local state institution was called to the office of the state board of control last week and given alternative of submitting his resignation or undergoing an investigation. He chose the latter.

Walker has been in charge of the Delavan institution for some 12 or 15 years and has made a most excellent record in the belief of the Delavan people. He and his family are popular here, and both are identified in all movements that have to do with the progress and uplift of Delavan.

For the past several representatives of Governor Phillip and the state board of control have been here scouring the town for data concerning the management of the state school for the deaf. These men are J. F. Baker of Madison, and W. N. Fitzgerald of Milwaukee. A few weeks ago another representative of the state officials was here a week on the same mission, but he was the present representative interviewed many business men. The governor stated that there seemed to be sufficient ground for the investigation, as will be done with all other institutions of the state, whether or not there have been reports adverse to the management, and he declares that all incompetents will be ousted.

HULL CASE SETTLED OUTSIDE OF COURT

Attorneys for Parties Interested in Action Over Kansas Land Sale Reach an Agreement.

The case of S. C. Hull versus William L. Kapke, Frank W. Fisher, R. N. Jacob, Thomas W. Donnelly et al., which was set for trial in the circuit court of this county on the 11th inst., has been settled and the necessary releases and receipts by the parties, and stipulations by the attorneys involved, have been signed.

No lawsuit of any kind in this county has caused more comment or excited more interest than this. It was instituted to recover money the plaintiff claimed he had paid for land in the state of Kansas which the defendant had induced him to purchase by alleged false and fraudulent representations.

When the case came on for trial in November, 1914, the attorneys for the defendants objected to the introduction of any evidence under the complaint, for the reason that it did not state facts sufficient to constitute a cause of action against any or all of the defendants. After listening to arguments by the several attorneys the court ruled in favor of the plaintiff, and the case was set for trial. The complaint was insufficient, and ordered it dismissed, with costs. The plaintiff then took an appeal to the Supreme Court, which reversed the decision of the circuit court in an opinion by Chief Justice Winslow, who held that the complaint was correct and set forth a cause for action.

When the calendar was called on the 15th of last month, it was fixed for trial, and Thos. S. Nolan, the plaintiff's attorney, moved to dismiss as to the defendant, Charles E. Sweet. This motion was opposed by the attorneys for the other defendants, and no action was taken by the court on the motion, as the attorneys indicated that they wished to be heard. Negotiations were then instituted for the settlement of the case. It is understood that an adjustment has been made of the matters in difference, which is satisfactory to all parties.

Recent cases in the courts have had such an array of legal talent employed. Thos. S. Nolan appeared for the plaintiff, and Attorneys Jeffries, Mout, Oestreich & Avery, Charles E. Pierce, John Cunningham and John L. Fisher for the several defendants.

JANESVILLE ELKS VISITED ROCKFORD LODGE LAST NIGHT

Forty members of the Janesville Lodge of Elks traveled to Rockford last evening by auto and interurban to attend the home talent benefit performance given under the auspices of the Rockford lodge. It proved to be a most enjoyable affair, and following the performance the visitors were entertained by the Rockford lodge members at a stag entertainment in the club house. The party returned at a late hour, reaching Janesville somewhat after two this morning.

ORDER OF STAGS MAY INSTALL LODGE HERE

Representatives of the Order of Stags, a new fraternal organization, expected in Janesville the early part of next week for the purpose of organizing a lodge in this city. J. Weber, 314 Galena street, has received notification to that effect and expects a representative of the national organization here either Monday or Tuesday to begin the organization for charter members. The order is three years old and claims to have a membership of 80,000.

POWERS SENTENCED UNDER STATE BOARD

Court Defers Sentence for One Year. Will be Paroled Out to Support His Family.

Mercy rather than penal punishment was meted out to James T. Powers in the municipal court this morning when Powers was arraigned to plead guilty to the charge of obtaining money under false pretenses from the Bank of Evansville, making the passing of a fraudulent check for fifteen dollars. When the plea was made, sentence was suspended on Powers for a period of one year and he was placed under the state board of control during that time.

Powers was arrested by Marshal Fred Gilman for passing the worthless check in La Crosse, Wisconsin, and it is alleged he has issued other false checks in Wisconsin and Iowa. When apprehended, Powers, under the name of Parker, admitted his long record, but was not allowed to make a plea. The court took into consideration the fact that Powers had a wife and three children at Grand Rapids and under the deferred sentence, he could supply a livelihood for his family, as he will be paroled out in the state to ply his trade—that of a mason.

After the sentence Powers was recommended to the county jail, where he will await the arrival of an agent of the state board of control, who will find employment for him. At any time if Powers violates his parole, he can be brought back into the municipal court and be sentenced either to the county jail, or a fine, or the maximum sentence of one year in the state prison.

CIGARETTS TAKING PLACE OF CIGARS

Sale of Cigars Dropping Off Steadily Under New Law Which That of Cigarettes Increases.

Many of the Janesville cigar dealers report that there is a decided decrease in the sale of cigars during the past few months and the reduction of sales is growing more marked each day. While the cause of this is the sale of the manufactured "tailor-made" cigarettes is increasing by a decided amount. Since the passage of the Wisconsin cigarette law, the dealers say the use of cigars has been reduced in favor of the cigarettes.

The sale of tobacco intended for pipe use has also decreased for divers reasons, principally because the cigarette habit is on the increase. "I know of men who never used cigars in their lives before until this year, but the cigar advertising and new law has encouraged their use, until new adults are beginning to use them," said one cigar shop owner. "For one I think that the new cigarette law is poor legislation, for while it may tend to reduce the sale of cigars among the poor, it certainly is encouraging the use among the adults. Where men confined their smoking habits to several cigars a day, they now use ten or fifteen cigarettes and it is costing them the same price, if not more."

A canvass of the city by the police department was recently conducted to ascertain if all dealers had state licenses and no violations were reported by the patrolmen. However, it is admitted that the provisions of the new cigarette law pertaining to the prohibiting of giving away the cigarettes is a dead letter as far as enforcement is considered. There is hardly a case of a conviction for this offense in the state.

DISTRICT W. R. C. CONVENTION AT EDGERTON ON TUESDAY.

The women of the Relief Corps at Edgerton entertained the members of the district convention on Tuesday, Nov. 9. About one hundred and twenty-five ladies were in attendance, fourteen going from Janesville. The meetings were held in the Methodist church, and the afternoon being served by the Methodist ladies. Their guests, Mrs. Williams of Edgerton presided and the Edgerton band gave several appropriate selections. A fine program was rendered in the afternoon, each corps having been requested to furnish one or more numbers.

The convention adopted the new flag salute accepted by the National convention. A new list of officers was elected, and the convention decided to accept the invitation of Ft. Atkinson and meet in that city next year. All visitors felt that they were royally entertained and that a delightful day had been spent by all.

TELLS SUPERVISORS KITCHEN AT ASYLUM CAN STAND CHANGES

State Board of Control Member
Would Make Conservation of Em-
ergy Keynote For County
Board.

Aside from telling members of the county board of supervisors at their meeting yesterday afternoon of the ways Mrs. Katherine R. Williams also took occasion to elucidate the fact that certain things about the Rock county poor farm and asylum were not just up to that notch where the efficient housewife of the twentieth century prides herself on standing. The fireworks, however, were not directed at Superintendent Cash Whipple nor towards the matron, Mrs. Whipple. They were pointed in the direction of the entire and in plain and emphatic tones, the fact they were to the effect that the kitchen of the place is not fixed right.

Mrs. Williams told that she found other arrangements very creditable at the county farm but that the kitchen was certainly not one to be admired. Aside from wanting the equipment renewed she also wanted the supervisors to see that other changes were introduced. The big bake oven would best serve in the basement. The kitchen floor needs looking after. Both the kitchen and the dining room can be readjusted.

The speaker made her plea because she found that too many steps had to be taken in the daily work and because the present arrangements were proving a strain on human energy, which, it behooved the board, she said to preserve to the fullest possible extent. The bake oven in the kitchen should be moved to the basement to eliminate its intense heat and oppressive odors when in use. The space it takes up could be conservatively employed otherwise. Other changes should be introduced to save steps which meant both strain on attendants and money from the treasury of the county.

"Wisconsin is the only state in the union which has its own institutions solely for its poor and insane," said Mrs. Williams. "Other states point to us as an example of efficiency. We are the only state wherein you'll not find our poor and insane occupying the jails. Therefore, does it not stand to reason that if we are to be held forth as the standard of efficiency? We have got to save the people who do not work in these institutions. The number of steps that these people are to take each day must be kept to the minimum. We can do this through the proper arrangements of our kitchen and the dining rooms."

WISCONSIN MADE CHEESE TO BE NATIONALLY KNOWN

Monroe, Wis., Nov. 11.—Wisconsin-made cheese will soon become nationally known. It will be made a staple product, guaranteed for quality as for quantity.

At a meeting of the National Cheese and Butter Dealers' association in Chicago last week a fund of \$100,000 was appropriated to carry on a campaign to educate the people of the nation in the food value of cheese.

At a meeting of the Wisconsin Cheese Dealers' association in Milwaukee it was decided to launch a separate campaign on the merits of Wisconsin-made cheese.

The movement is said to have grown out of the Monroe Cheese day idea, when the state line city held a big celebration attended by thousands of people from Illinois and Wisconsin in honor of the Wisconsin product.

Wisconsin is the largest individual cheese producing state in the union, manufacturing more than half the nation's supply. The 1914 crop turned out in the factories of Wisconsin exceeded 180,000,000 pounds, enough to fill 100 trains of thirty-six cars each.

There are in Wisconsin approximately 2,500 cheese factories. Its value as a food product has been recognized by the warring European nations, two large consignments having been shipped by one firm, and many other big orders have since been placed for cheese for use in supplying the armies.

Scott & Bowne, Milwaukee, N. J. 15-35

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthy digestion make work pleasurable in business, in school or even housework, and if those who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's.

OMAR
TURKISH BLEND
CIGARETTES

It's a far cry from the
amorous skies of Smyrna to
the sunny slopes of Virginia
—yet OMAR, the Exquisite,
draws its mellow richness
from the treasure-chests
of both. Their choicest,
rarest tobaccos, in incomparable
harmony, unite to make
OMAR the Perfect Turkish
Blend—the cigarette that
sparkles with the mingled
sunshine of East and West.

OMAR is the ultra-climax of
cigarette deliciousness. If you have
been an "all-Turkish" smoker,
you'll find OMAR far richer in
snappy relish. And as for other
blended cigarettes—not one can
compare with OMAR in its smooth
flavor and aromatic fragrance.

Glass of Hot Water
Before Breakfast
a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

RIGHTS OF WOMEN.

Four of the largest eastern states have spoken decisively on the question of universal suffrage, and the Wall Street Journal in commenting upon it, says that now that woman's suffrage has been decisively beaten in the four most important eastern states—New York, New Jersey, Pennsylvania and Massachusetts—the advocates of woman's suffrage might ask themselves a few pertinent questions. Do they really want equal rights? There is not a broker in Wall Street who does not dread woman customers. They do not want equal treatment. They want all that men get, and an extra concession for sex. They are the worst losers in the world, and they seem incapable of gratitude when they win. Many brokerage houses refuse to take women's business, except on an absolutely investment basis, and this is true through some male lawyer or trustee.

This is one of the lessons which never seems to have impressed itself upon the woman who is crying for the vote, without understanding what it means, or what its usefulness may be, or why women in the aggregate can achieve reforms of defects inherent in human nature which men have failed to achieve. There is an underlying reason why the men have declined to grant the franchise to women. It is that taken in the aggregate, the sense of honor and fair play, is different from that of men. It is not true that all women cheat at cards, but it is true that few men care to play cards for money with a woman. At the best, she is a bad loser.

It will be at least four years before the question of suffrage can be reintroduced in New York state. During that time it would be wise for the suffragists to cease abusing the men, and to look into themselves to find whether there is not some radical defect which must be corrected before the male voter can be convinced that the Millennium is to be attained, not by weeding out the voting list, which already includes a large amount of ignorance, but by doubling its numbers.

These ladies then perhaps will realize that the educated suffragist represents only a minute portion of the possible women voters, and that if once granted the vote, they could be voted, en bloc, with far greater facility than Tammany Hall can handle its male following now.

IS IT A MISTAKE?
President Wilson's action in suspending the work of the Red Cross in Mexico as a preliminary to the recognition of Carranza, and at a time when the ministrations of that humane institution were most sorely needed, is severely if conservatively condemned in the latest issue of the official Red Cross magazine. The only conclusion to be drawn from Mr. Wilson's action, which occurred the day before Carranza was recognized, is that he feared to have the truthful and impartial reports of the Red Cross agents reach the people of this country. Consequently, on October 8th the president caused Secretary Lansing to request the Red Cross to cease its work and withdraw its agents, when, as the Red Cross magazine says, "At this time, just as was the case a month previous, many deaths were occurring daily from starvation and the country as a whole was in a pitiable plight, economically and industrially. General Carranza's assurances that the situation will be cared for hereafter, have not wholly dispelled the feeling of sincere regret on the part of the American Red Cross over relinquishing its part of the relief work. It is hard, for instance, to leave a locality where many thousands of families, mothers and babies predominating, have been absolutely dependent for sustenance upon small portions of nourishing vegetable soup which we have daily distributed. Half-famished mothers, with skeleton limbs at their breasts, have besought the Red Cross agents in the name of all that is holy, to do something for their babies, to save them if they could not save the mothers—and there have been many formerly well-to-do persons, not the poor class, who have been among the pitiable petitioners for Red Cross aid." With the Red Cross agents away and only newspapermen, who, in the face of Carranza's strict press censorship, are powerless to report the facts, anarchy and chaos may continue to reign supreme in Mexico without any exposure which would be embarrassing to the Wilson administration.

THE SONS OF THE WEALTHY.
Philip D. Armour, third, began last week his work in the hog pens of the Chicago stock yards. There his family's fortune got its start. He receives no favors, and works like any Swede or Hungarian. He is learning the business from the ground up.

Not every son of wealth thus goes through the mill. After college he may get several years of leisurely and luxurious travel. Then he will be put to work at some nominal office position in the business. His bet is not in big ledgers or monthly reports, but on the golf links or steam yacht. Why should he work, with no need of earning money? And if he feels this way, what becomes of moral fiber?

The son of wealth who is willing to take hold in the hog pen must have good stuff in him. The possession and spending of money can not wholly satisfy him. Probably he wants the thrill of doing something himself, rather than merely taking what others hand out to him.

The young Cressus in the mill has one advantage that is denied the poor boy. He gets the chance to learn every department. The poor boy must do some one task over and over again. Only by luck can he get any broad conception of the industry. This blocks most men's path to success.

Much labor friction could disappear if every son of wealth were put to work beside the man. His father has

felt the weariness of hard labor. He has seen at close range what life's struggle really means. To the boy who simply handles checks and reports and credits, the mechanic is a remote and alien creature. He is a mere business fact, raw material to be bought and sold like iron and leather. He can't get his point of view. Phil Armour and those like him will not merely get a better preparation for business success. They will also see and hear things concerning the working world that they ought to know about.

Women will go into many new industries as a result of the war, it is predicted, and in cases where they can do twenty per cent more than a man they will not be paid at least two-thirds as much as a man gets.

Venezuela of Greece seems to have the necessary votes, but lacks the necessary voteage to really bring about results that would be suitable to the allies. Rumania's aloofness to the war is nothing to the way with which Greece is flirting with trouble.

There are a good many motorists who think it is not much use to be careful, as in case of accident they can always speed up and get away before anyone thinks to look for their number.

Those 2,000,000 men in Kitchener's army must have been estimated by the same man who looks over a chilly attendance of 225 at a political rally, and sends out the dispatch about the 1,000 cheering citizens.

Crowning a Japanese emperor is even more difficult than you would imagine until you read all the details of the ceremony that has been handed down through centuries from one royal family to another.

People are urged to buy automobiles in the fall because it is cheaper, and they are urged to buy them in the spring because then they won't have to pay storage through the winter months.

American soldiers hit by Mexican bullets are as much disturbed by the accident as though they were shot on purpose. But what does a mere private or so matter when "Watchful, Waiting Woodrow" is still in power?

One of the German newspapers speaks of a plan for a civil war between various races in the United States. It is doomed to disappointment, however, and such talk is both childish and unnecessary.

Just supposing Villa did capture Carranza. Do you really suppose he would trim his beard off to see what kind of a chin he had concealed by his beard in the interests of science?

While generously advising the public to go out and buy stocks and enrich themselves, the chances are that the insiders are quietly disposing of their own holdings.

Over in Europe the soldiers are digging themselves in, but down in Panama they are digging themselves out. Just a bit of a difference, you know.

President Wilson still preaches the doctrine that right is right, but adds that right should go armed so as to impress everyone with its might.

Byran should not be discouraged. He ever failed to make much of a political dent in Ohio voters' returns even when he ran for president.

Whitewater News

WHITEWATER RESIDENT DIES TUESDAY MORNING

(SPECIAL TO THE GAZETTE.)
Whitewater, Nov. 11.—Mrs. Hulda Ransom Forrest died at her home on the corner of Prince and Walworth streets Tuesday evening at ten o'clock. Mrs. Forrest was born in London, Vt., March 23, 1829, and came to Wisconsin in 1844. After her marriage to William Forrest, she lived on their farm in the town of Lima until 1874, after which time the family moved to the home on Prince street. She is survived by her daughters, Mrs. Hattie Grant, Miss Ida A. Forrest, and Miss Ada A. Forrest; her grandchildren, Ed. Forrest, Arthur Forrest, Mrs. Chester Parish, and John F. Grant; and her six great grandchildren. Funeral services will be held Friday at 2:45 at the family home and interment will be at Hillside cemetery.

Mrs. Clara Tubbs and Mrs. Mary Tuck are spending the week with friends in Milwaukee.

E. C. Goff, F. Olsen and L. W. Swan of Elkhorn visited here on a short time last evening. They had been at Fort Atkinson to inspect the Kilbourn electric power at that place.

Mr. and Mrs. John Flagler spent Wednesday in Janesville.

The remains of Mrs. Dwight Coe were taken to Milwaukee to be cremated on Wednesday. The cause of her sudden death was apoplexy. The son and daughter, Edwin and Olive, came yesterday, and Mr. Coe is expected today.

Mrs. Hagaman and quartet entertained the normal school at assembly with Indian music. Mrs. Hagaman gave a short talk on Indian music and a description of each selection before it was rendered.

The men at the normal school have organized their organization and have given it the name of Normal Brotherhood. The object of the society is to promote a feeling of good fellowship among the men and to aid the school in all ways possible. All men are active members of the Brotherhood, and all men Alumni, men members of the faculty, and all men ex-students are honorary members.

Mr. and Mrs. Frank Courtier and son of Evansville, visited friends here.

NEW TEETH WILL LENGTHEN YOUR LIFE

Long experience is a great factor in equipping a Dentist so that he can make teeth that fit. If I had a map of the world and could stick a pin in every place where there are people wearing my work, it would make an interesting exhibit. My patients have gone to almost every part of the globe.

I've had the experience.
Let me give you the benefit of it.
Making teeth that fit is one of the hardest things to do in this world.

ELECT FRED REHFELD ROAD COMMISSIONER

**SUPERVISOR FROM TOWN OF
ROCK NAMED TO SUCCEED
CHARLES E. MOORE.**

TAX INTEREST AGAIN

**Board Reconsiders Tax Certificate
Charges and Decides Fifteen Per
Cent is Not Too Much.**

**WHAT COUNTY BOARD DID
WEDNESDAY AFTERNOON**

Voted \$15,000 appropriation to asylum and poor farm. Reconsidered tax certificate interest, fixed during the morning session at 10 per cent, and voted to raise the interest to the maximum, 15 per cent. Voted \$25 for repair of old World's Fair flag and instructed building committee to place court house flag-staff over front porch. Elected Fred Rehfeld, of the town of Rock, highway commissioner. Abolished office of deputy highway commissioner. Annual salary of \$1,200 and expenses. Heard asylum and poor farm trustees, superintendent and physician. Referred to board of control member on highway making with convict labor. Secured a few pointers regarding kitchen arrangements to state board from state board member.

Fred Rehfeld of the town of Rock, a member of the county board for the past ten years, was elected on Wednesday to the office of county highway commissioner. During the past year Moore of this city, the present incumbent. Both Mr. Rehfeld and Mr. Moore had strong followers among the supervisors. The name of Mr. Moore was proposed for re-election to the office with the introduction of that of Mr. Rehfeld. An informal ballot cast showed 21 for Rehfeld and 15 for Moore.

On motion of Supervisor John Tulare of Evansville that the informal ballot be made formal, the board voted accordingly. Later resolution passed that the highway commissioner's salary at \$1,200 per annum and expenses. The board cut off an annual expenditure of \$500 when they voted to abolish the office of deputy highway commissioner. During the past year this office was held by Mrs. Emma Moore.

Mr. Rehfeld will assume charge of his new office on January first, next. The report of Arthur M. C. Moore, chairman of the board of trustees of the poor farm and asylum, of Superintendent Cash Whipple, and of the attending physicians, Drs. J. F. Pennington and T. W. Nuzum, were read and filed.

Later the resolution for the appropriation of \$15,000 for the poor farm and asylum was taken up. Tax Certificate Interest. Action without due consideration proved a boomerang during the board's session yesterday afternoon, as a result the board decided to raise the matter of tax certificate interest at the minimum of ten per cent, which they decided upon during the morning, reviewed the back tax problem and finished with action altogether on the other side of the fence. As a result the board went on record as favoring fifteen per cent as the most advisable tax interest for certificates.

Supervisor F. E. McGowan, chairman of the board, opened the matter in the afternoon meeting by drawing a comparison of conditions which would prevail in Rock county, similar to those in Racine county, if the tax certificate interest was placed at 10 per cent. Over on the lake shore, he said, but forty per cent of the certificates found sale. The other sixty per cent were thrown back on the hands of the county. That condition, he said, was inevitable here, under the morning's action, was Mr. O'Neal's contention. Therefore, he moved that the matter be reconsidered.

McGowan Changes Mind. Supervisor Henry Ebbott of Edgerton proved to be the only member who voiced his opposition. Mr. Ebbott claimed that it was always the people and large families who were thrown into such conditions. He had sympathy for these and other victims of circumstance who were compelled to mortgage their homes and farms to meet obligations, and he held that under such circumstances, these people could not well stand the additional penalty.

County Treasurer Speaks. Mr. O'Neal took exception to the remarks of Mr. Ebbott and asked that Treasurer F. E. Livermore be heard. The latter announced himself in sympathy with the statements of Mr. O'Neal and said that from his position as county treasurer, he believed the certificates interest at 10 per cent, the bidders drop out of the race unless interested in the mortgage, or personally interested otherwise. Thus, said Mr. Livermore, it throws back on the county all those certificates not bought at 10 per cent.

The difference of five per cent makes nothing to elaborate upon in the case of the property owner, he said, but it does mean something to the man who specializes. The larger number of certificates are redeemed within six months, he found, and the interest difference would be very small. He did not know of the lower interest rate until four days afterwards. "Didn't the certificate purchasers know?"

"Yes, and we were called down for charging more. It was our mistake. We did not know of the lower interest rate until four days afterwards."

"Didn't the certificate purchasers know?"

"Yes, and we were called down for charging more. It was our mistake. We did not know of the lower interest rate until four days afterwards."

"Didn't the certificate purchasers know?"

"I don't know." Supervisor McGowan, who had interests in the spring delinquent tax sales, was asked if he knew, if when he was purchasing that the certificate interest had been lowered. He replied, "I don't think I did."

Vote was taken and showed twenty-four in favor of reconsidering the question of eleven against. Following the motion of Mr. McGowan that the tax certificate interest be placed at fifteen per cent carried with few dissenting voices.

Remember the Flag. "Old Glory" has not been forgotten by the supervisors. Supervisor McGowan again came forward as a champion and introduced the resolution that a sum of \$25 be appropriated to repair the old World's Fair flag, secured by the county through the efforts of the late Mrs. John Winans.

The opinion was voiced that it would be better to buy a new flag because the old one was stained and the newer one was no better, but the idea did not have much weight after the valiant plea of Mr. McGowan for preservation of the more or less tattered old flag. The resolution was carried and the court chambers for over thirty years.

During the discussion which followed, which was a considerable interest and numerous opinions were expressed, together with a resolution to place the court house flag-staff over the entrance porch, the fact that even with the new flag the old flag was still in the county will be a reminder of the flag pole, was forgotten. The board made no provision for a new flag for the pole, consequently of their becoming so much as a reminder of the old flag, a twenty-four foot banner for the present staff on the top of the building, (the old flag formerly used was forty-four feet and every time the wind blew when the flag was raised, it was a reminder of the old flag, and a portion of the sixty foot pole and use a smaller flag, or whether to use a flag (which they did not provide means to support) or to tear it off on sharp corners of the building were the proposed staff erected on the porch at the entrance. In the heat of the discussion they lost all sight of the fact that the old flag was meant more for an inside ornament of breezes and rain and storm. Consequently if the country is going to have the old flag, it must be a banner which at one time flew on the top of the building, it must realize that it overlooked this unhyphenated Americanism and act accordingly, in the purchase of a new banner for the new flagstaff.

in his work. The year preceding his term, when the late Sam Jones was commissioner, the contracts for the three town of Turtle roads had been let. There was a failure to write the contracts, he said, and although the contractor finished the first two roads he started he never got to the third road, the state line highway.

"Throughout my term of office I have been governed by the wishes of the respective town boards and chairmen where I have had work," he said. "I consulted with them as to where they wished their roads repaired or rebuilt, what amount they cared to spend and as to the materials which were to be employed."

Many Ailments Due to Constipation

Constipation is due to an abnormal, or diseased condition of the bowels and permits of poison being absorbed into the blood and by it carried to the various tissues of the body. This poison affects the nerves, causing nervousness and renders the kidneys, liver and other organs unable to perform their natural work. This poison causes a gradual failure in health until there is no health. To regain health it must be removed from the system. The impoverished blood must be replaced by good, rich, pure blood.

The milk and rest treatment will not only remove the poison, but restore to health the diseased organs. It is the quickest, surest and safest method of regaining health.

AT MYERS THEATRE.

On Friday, Nov. 13, Charles H. Wuert will present at the local theatre the musical comedy "Lady Luxury," which is the joint work of Rida Johnson Young, who wrote both the book and lyrics, and William Schroeder who composed the hitting music.

Mr. Wuert has spared no expense in regards to scenery, costumes or cast; in fact the gowns, that are the "exquisite of modernism," have been designed and executed by Lady Duff Gordon (Lucille).

The cast is headed by dainty Florence Webster and contains such well known players as Joseph Herbert, Arthur Albre, Forrest Huff, Fritz von Busing, Gipsy Dale, Emily Fitzroy, Eddie Morris, Sam J. Burton, the famous Berlin Madcaps and the stunning Casino Girls.

The augmented orchestra will be under the able direction of Whitney Bennington, which will render the twenty odd musical numbers, among them being "Dream on My Princess," "Pick a Pickle for You," and "Kiss Me Once More."

AT THE APOLLO.

"The Melting Pot" Next Tuesday and Wednesday.

The Apollo Theatre is very fortunate in being able to present on Tuesday and Wednesday of next week Walker Whiteside in his original role in "The Melting Pot."

The play revolves around a talented young Russian Jew, who saw his parents killed in a massacre and who escaped from the bloodthirsty mob and came to America. In this country he earns a livelihood by playing a violin at a cafe, where he attracts the attention of a young Russian girl, the daughter of an official of the czar. On account of sympathizing with the persecuted Jews, she was exiled to America by her father, and in this country she busied herself with settlement work. The young couple are strangely drawn together by their mutual love for music, and despite their differences in religion, find themselves falling desperately in love with each other. But objection arises from various sources to their marriage. The young man's aunt, with whom he lives, objects to a Gentile entering her home, while the girl's father, who had been summoned to this country by a jealous suitor, is equally opposed to a Jewish son-in-law.

Other complications develop, but in the end, after both the hero and heroine suffer tortures of mind and heart and endure the stresses which the violinist attains with his own position, they find happiness in each other's love.

Walker Whiteside makes his bow to the "movie" world in this production. Previous to his acceptance of the offer to reflect his art and personality in the film version of "The Melting Pot," he had refused numerous attractive offers.

An advance sale of seats is now on for both evening performances.

AT THE PRINCESS.

Hobart Bosworth and Jane Novak on Friday.

"The Scarlet Sin," which comes to the Princess theatre on Friday, is a powerful, soul-stirring drama of a woman who sinned and the price she paid for her folly. There are no exaggerated scenes in it for the principal roles are played by stars of the legitimate stage, veterans of the footlights who know the value of repression in moments of stress. "The Scarlet Sin" was written by James

Dayton from the original story by Olga Rintaman Clark and tells of a minister's struggle with his unfaithful wife. Otto Turner and Hobart Bosworth, both legitimate and photoplay veterans, have produced the five-reel photodrama in masterly fashion. Mr. Bosworth is assisted by Jane Novak and a sterling cast of character actors including Grace Thompson, Frank Elliott, Hart Hoxie, Ed Brown, Wadsworth Harrie and Mrs. Wright.

AT THE MAJESTIC.

Edith Storey in "The Island of Regeneration" Tonight.

The plot of the story is this: John Charnock, at the age of about six, is shipwrecked on an uninhabited island with his mother and dog. Before many days have passed his companion, a small cat, the child is left alone. The scene of the story then jumps back to civilization, twenty years later, and shows the efforts of Katherine Brenton, the idealist, to work out her life eventually she is a man-made law. Eventually she is a convention and goes on an ocean voyage with Valentine Langford. Finding out the true nature of the tender and is really washed ashore on "The Island of Regeneration." Here she finds Charnock, now a wild, uncouth creature, so long unacquainted to human society as to have forgotten his mother tongue. The situations which arise from this point are powerful and well developed. Dramatic art never has better scope than when it is stripped of superficial environment of so-called society and given the desert island and the elemental motives of love and fear and hate to play with.

It is not the most absorbing story to dwell further on the events which follow. For the curious, it is sufficient to say that Katherine and her island man eventually come to an understanding of the eternal things of life, but not without many trials and tribulations.

The photographing and setting of the play are excellent, particularly the scenes taken on the island. Broadly speaking, "The Island of Regeneration" may be said to be one of the most dramatic that the Vitaphone company has ever shown, and is a credit to its producers.

Performances begin tonight at 7:30 and 9:00, and tomorrow at 2:30, 4:00, 7:30 and 9:00.

BARRYMORE AMUSES APOLLO AUDIENCES

"The Incurable Dukane" Gives Noted Comedian Wide Scope for Fun.

With his spontaneously droll expressions, John Barrymore chased away the blues at the Apollo last night in his presentation of the title role of "The Incurable Dukane," a Paramount picture play.

John Barrymore has a faculty of creating whole-souled merriment in a manner devoid of all obnoxiousness. The story itself was full of frolic also. Jimmy Dukane has a preference for midnight frolics which interferes with his appearance at his father's office the next day. Consequently, he is packed off west to a construction camp. He loses his clothes and money and there is much fun in his efforts to learn the work of the camp. There is a girl of course whose hat Jimmy is continually kissing with that manner of impersonal osculation

SPORTS

ATTEMPT TO BOLSTER LINE FOR ILLINOIS

Dow and Byers and Smith Will Start Game Against Conference Champions Saturday.

(SPECIAL TO THE GAZETTE.)

Madison, November 10.—The last scrimmage before the important battle with Illinois on Saturday at Urbana was held this afternoon by the Wisconsin squad on Camp Randall. A big "pop" session was held along with the practice when the varsity band turned out with the students. Every student is on edge over the coming game, which will determine Wisconsin's chances for the western title. The contest at Urbana will be the biggest western battle this week with the possible exception of the Gopher-Maroon contest at Minneapolis. The Badgers are conceded a good chance to win, for it is now definitely known that the speedy Doy and the smashing Lynn Smith will start at fullback with the veteran Kreuz on the sidelines. The 1914 fullback is in good condition, but will not be called upon unless needed.

Every attempt to secure stronger linemen than the old regulars was made during the week by the coaches. Rosenberger may play at guard and Kuch at right tackle. Myers and Stavrum will take care of the end positions. Captain Buck will play at left tackle. Wenzel and Byer have been showing up well at guard and may replace Gardner and Hancock at the opening of the Sucker struggle. Gunderson will start the game at center in place of Pottinger. Eber Simpson will pilot the line, Taylor being the second-string quarterback.

There is every indication that the band will accompany the team. Tagers have been raising money in the city to send the musicians, and by tonight over three hundred dollars had been raised. But a small amount must be raised on Thursday and Friday. No less than two hundred students will make the trip along with the band.

Joe Stecher, Nebraska's wrestling idol, and Grover Alexander, Nebraska's baseball deity, will both appear in Omaha soon in the guise of champion bowlers. The two famous athletes have consented to participate in the big midwest bowling tourney. Each is a good bowler and confidently expects to carry off some honors. Gene Melady is organizing a team to be entered in the tourney and it is probable that both Stecher and Alexander will roll with him.

Sport Snap Shots

MORRIS MILLER

When it was announced that Harry Legore, the Yale athletic star, had been declared ineligible as a college athlete because he admitted playing baseball for money, a number of major league managers hastened to offer him contracts, but he turned them all down, as he did last spring. There is a suspicion, however, that crafty Connie Mack may yet land Legore for his Athletics.

According to Jean Vermelen, the ten-mile champion runner of France, army life in France is making athletes of men who never indulged in athletics before. "It is astonishing how many lads have taken to athletics, thanks to the army," says Vermelen. "Having nothing to do to while away the time, soldiers who knew nothing about sport a few months ago have taken to running, boxing, football, or some other form of sport, and many have the making of champions."

Ed Fitzgibbons of Yonkers, N. Y., high school is a remarkably clever golfer, despite a handicap which might well make most youngsters look to a less exacting pastime. He has only one arm, his right; yet such is his skill with driver and mashie with midiron and putter, that he fought his way up to the semi-final round of the individual scholastic championship on the Van Cortlandt park links. Fitzgibbons dipped his colors to Herbert Guley of Hanckensack, 8 and 6, but he played remarkably good golf, for all that he lost. His caving is much better than that of most boys who are physically perfect, and he hits the ball clean and true.

In view of the recent suspension of the quintet of Yale university athletes, the following from "Varsity," the official publication of the University of Toronto, is interesting. It says: "Any undergraduate playing with any team other than a university team during the academic year in any form of athletics, in a recognized league, union, or association, or in any championship match, shall stand suspended from further participation in university athletics until reinstated by the director."

Under Coach William Haines and Head Coach Herrick, it is probable Harvard's game will be taught, the English stroke with some slight modifications, and this will bring Harvard and Yale to the starting post at New London next June, rowing practically the same stroke and leaving it a question of material and pol-

ish as to which will win the big series of races.

Minneapolis bowling enthusiasts will participate in a three-man team series this fall. Minneapolis will hold the International Bowling association tourney February 10 to 17, 1916.

Turner Barber, the young outfielder purchased by the Griffins from the Winston club of the North Carolina league, was recommended to Connie Mack by his son Earl this summer, but the Athletics' pilot refused to grab the kid, who is now regarded as one of the new men slated for a regular position with the Nationals next year.

Manager Pat Moran of the Phillies has taken on several players in addition to the twenty-three who were eligible for the world's series and now faces the problem of cutting to twenty-one to get within the league limit next May. He is top heavy on pitchers and may offer several for trade. Outside of the pitching staff he expects to make few changes in his team, if any.

The New York Giants have been made a proposition to do their training in southern California, but so far as known, there is no intention to forsake Marlin in fact. Marlin would declare war on Hempstead, McGraw & Co. and send an army to invade New York and demand satisfaction should the treaty with the Springs be abrogated.

Joos Willard is to return to the ring. This announcement has caused the widest enthusiasm among a throng consisting of Tom Jones and Jack Curley. After looking over carefully to find an opponent worthy of him it is said that Willard may select Fred Fulton for his first fight. Fulton's claim to the honor is obvious. In the first place, he has the same first name as Fred McKay. In the second place, he weighs so much on the hoof that his flopping would make the fall of Nineshew and Tyne seem like a bush league performance. In the third place, he has never been licked by Freddie Welsh. He never fought him, if the match with Fulton falls through, why not substitute Al McCoy? "When it would at least be a battle of champion against champion."

While the Giants may not be depending upon Matty for next season, it cannot be said that he would actually object if he should happen to have another good year.

The rumors that Chick Gandill is going to leave the Washington club before next season and the young become a Cleveland Indian is still in the air. But so far it's just talk. "I know nothing more about any move of the Washington club to get rid of Gandill than I have seen in the papers," says Owner Somers of the Indians. "We haven't any deals on now and probably won't have until after the owners' meeting next month. I haven't any assurance that the Washington club would part with Gandill if we wanted him. The owners of weak clubs probably will try to strengthen their teams at the meeting."

AD WOLGAST'S BROTHER FIGHTS IN APPLETON TONIGHT

(SPECIAL TO THE GAZETTE.)

Appleton, Wis., Nov. 11.—Johnny Wolgast, brother of the used-to-be great Ad Wolgast, will face young White of Oshkosh in a 10-round wind-up here tonight. Young White took the count at the hands of Adolphus a few months ago and is now going to try and take it out on his brother.

Ford Munger, formerly of Kalamazoo, will meet Anton, the Greek, of Milwaukee, in the semi-final. Munger is a classy boy, having fought some of the scorpions in a knock-out registered on the wrong side of the score board.

Jabber Jung, Menasha, will face Benny Herzog of Milwaukee, for an eight-round encounter. Eddie McCann of Oshkosh, and Al Hoppe, of Kaukauna, will mix it for eight rounds in the opener.

Matchmaker Kanna has fixed up a good card for the Appleton fans.

CRACK BADGER RUNNER DECLARED INELIGIBLE

(SPECIAL TO THE GAZETTE.)

Madison, Nov. 11.—William R. Goldie, crack Badger cross country runner, has been declared ineligible by authorities of the university. This means that Goldie will not enter any more events staged by the University of Wisconsin. The action came as a result of protests by western conference schools, who apparently knew the status of Goldie's case better than did the officials here. It appears that Goldie commenced his track career back in 1912, finishing his third year of running last spring. Goldie is one of the best track men Wisconsin ever had.

NEW LAWS MAY STOP HUNTING ACCIDENTS

Since Hunters Must See Deer, Before Shooting, Expect Decrease in Human Deaths.

(SPECIAL TO THE GAZETTE.)

Rhineland, Wis., Nov. 11.—Hundreds of hunters invaded the northern part of Wisconsin today to take advantage of the first day of the open season for killing deer. The deer law has been changed so that only bucks can be killed.

For the first time under Wisconsin game laws, it is necessary to "see the horns" before the hunter can shoot. The new law will not only save the lives of the female deer, but also of hunters it is believed. In the past, it has been the custom of hunters to shoot as soon as they saw anything move. In this manner, many men were killed. Deer are reported more numerous than ever before so that the new law is not expected to work a great hardship on hunters.

Prohibited methods of killing deer are: Shooting deer after dark or an hour before sunrise; on water or on the ice of any lake, pond or stream, with a dog or dogs; with the aid of an artificial light; by placing salt in any place to entice the deer; by using a scaffold from which to watch for deer.

James Nevin, chairman of the state conservation commission, has issued an appeal for hunters to obey the law. He says: "Every man who is a true sportsman believes in reasonable protection and restriction. He wants to live up to the laws and wants every other man to do so, whether he is a member of a conservation club or not. If a live club with several hundred members could be organized in every community, each man obeying the law and reporting all violations, there would be fish and game for generations to come."

INDUSTRIAL DISEASE EXPERTS ARE COMING

Dr. Rupert Blue Assigns Two Federal Physicians to Wisconsin Field.

(SPECIAL TO THE GAZETTE.)

Madison, Wis., Nov. 11.—Through the agency of the Wisconsin industrial commission employers of this state are soon to have the expert assistance of attaches of the United States Public Health Service. Dr. Rupert Blue, surgeon general of the United States Public Health Service and president of the American Medical Society, has agreed to send his experts to Wisconsin at the request of Chairman J. D. Beck of the Wisconsin commission. Gen. Blue has assigned Surgeon J. W. Schereschewsky and Dr. Oleson to the Wisconsin field and they will be in Milwaukee Nov. 15. Dr. Schereschewsky is well known to the medical fraternity as an authority on industrial diseases. For some time he has been stationed at Pittsburgh where the federal government is making an exhaustive inquiry into conditions in the steel mills. He will hold a meeting Monday night in Milwaukee with members of the various safety round tables. The general subject for discussion will be "Physical Supervision and the Health of Workers." The broad scope of physical and medical examination of employees naturally will form an important part in the discussion. The meeting with the representative of the United States was arranged by Chairman J. D. Beck at the instance of several employers who desire to improve sanitation and ventilation in their plants but who were unable to obtain expert advice. The arrival of Gen. Blue will mean the arrival of expert advice; the round table meeting will be the first step in a great dissemination of information for the benefit of the employers and the working people of Wisconsin.

READY FOR INTERIOR WORK ON NORTH CAPITOL WING

(SPECIAL TO THE GAZETTE.)

Madison, Wis., Nov. 11.—The north wing of the new state capitol is now under cover so that interior work may be carried on all winter. This announcement was made by Lew F. Porter, secretary of the capitol building commission today, who said that by one year from this date the north wing would be practically completed. This is the last wing to be placed under construction, the three other wings and the dome having been practically finished for some time. While the work of completing the work of the north wing is under way the various departments of the capitol are being carried on in the other wings. The north wing of the capitol will have large rooms for the holding of the hearings conducted by the different government commissions.

Mr. Porter announced that it will be impossible to complete the granite approaches to the different entrances to the capitol this fall, owing to a shortage of stone. During the winter months the stone will be cut and the work of completing the approaches can then be carried on to completion in haste.

MADE OVER AGAIN.

Mrs. Jennie Miner, Davidson, Ind., writes: "I can truthfully say Foley Cathartic Tablets are the best I ever used. They are so mild in action. I feel like I have been made over again." "God health has no greater enemy than constipation. Foley Cathartic Tablets keep the stomach, sweet liver active, bowels regular, and banish biliousness, sick headache, sour stomach. Stout persons welcome the light, free feeling they give."—W. T. Sherer.

Married Life on \$80 a Month

Molly hung the little blue silk hat that had caused so much heartburn on a hanger in the closet, put on a clean house dress and, having washed her red eyes, set about getting supper. John came in with a sullen, injured air, and buried himself in his paper without a word. Molly thought she would correct his mistaken notion about the dress, but a strange anxiety held her from speaking. "What is the use of telling him?" she thought. "If he is at all clinging to that it will be something else. Even this stifling silence is better than a storm. Sometimes he will learn that I do not spend any money for it. I suppose. I do not care enough to make the effort." So the frozen silence was punctuated only by the light-hearted chatter of little Jack.

Evidently John expected her to open the subject, and when she said nothing his curiosity about the matter finally thawed his frozen reserve, and when Molly seated herself by the table after finishing the work he picked up and said:

"I suppose you ran in debt for that dress. You certainly had no money to pay for it with."

Molly raised a face aflame with wrath and answered:

"Do you really think that I would run in debt for a silk dress with fancies in their present condition?"

"What am I to think?" she said. "I had no money to pay for it with, as I said, and you had on the dress."

"By all means think the worst

possible thing about me; never give me the benefit of a doubt; never give me the benefit of an explanation. It's a habit of long standing with you. I stopped her lips, trembling with anger.

"When I do give you a chance to unravel the mystery, you don't seem very eager to do it," he remarked. "When people live as far apart as we do, it is difficult to get anything done. I began at last. 'I got a chance to pay for the dress with some work. It's not new, and I thought it would be such a pleasant surprise to see your wife well dressed that I decided to give you a chance to see through it. I can remember the time, long ago as it is, when you were proud of me. I was a fool. I should have known better.' The words were tumbling half inaudible from between her trembling lips and she dropped her head on her chest and began to sob convulsively. All the sharp disappointments over the failure of her marriage, the sting of resentment over John's lack of confidence in her, and the memory of his biting words swept over her a terrible flood of desolation.

"So this is the end of all the long weeks of laborious work and pinching economy. Oh, let me die! Let me die!" she moaned. "I am not strong enough to stand it. Life is too difficult for a poor ignorant woman like me. I never was told how to live. Let me creep out of it all under the burning efforts will not trouble any more."

Into the black night of her despair, below the waves that were struggling and suffocating her floated the words:

"Molly, dear little wife, can you ever forgive me? I am a big, clumsy, blundering fool. I have been blind and deaf. I have not understood. If you can forgive me—"

John's great head, tear-stained face to his, a great light in his eyes. John picked her up and sat down with her in his arms.

HEALTH TALKS

By WILLIAM BRADY, M. D.

ACUTE CORYZA, CALLED THE COMMON COLD.

We are through joking about the common "cold." It is no joking matter.

Opening of "Gift Shop"

SATURDAY, NOVEMBER 13th
9 SOUTH MAIN

Three doors south Myers Hotel.
Unusual Christmas Gifts and
Greeting Cards and Calendars.

"No!—
I Said
Calumet!"

"I want what I ask for—I know what it would mean to go home without it. Mother won't take chances—she's sure of Calumet—sure of light, wholesome, tasty baking—of positive, uniform results—of purity and economy. You try CALUMET Baking Powder—lay aside your favorite brand once and you'll never go back to it. Calumet is the world's best Baking Powder—it's moderate in price."

ter—no, we haven't caught one for years and years, because we have no fear of air—but the more ridicule we heap upon the catching cold delusion the more mean things people say about us. In this talk about ordinary coryza we are in dead earnest.

First, what is coryza?

It is an acute, CONTAGIOUS inflammation of the mucous lining of the nose, characterized by slight fever, chilliness, sneezing, running at the nose, stuffiness of the nostrils, perhaps mean, dull headache, and loss of smell and taste. No less than half a dozen different types of bacteria are known to cause attacks of coryza. And nothing but germs can cause it. These so-called "colds" in the head that come and go all in a day or a few hours are not coryza; they are merely temporary congestion of the nose and throat in an individual subject to chronic rhinitis or catarrh. Coryza is a real, serious, often fatal disease lasting at least three or four days, usually a week.

Why is coryza more frequent in fall, winter and spring than in summer? Because then people are more confined in artificial, heated houses. The more time one spends in the open air, the less the chances of catching coryza. Under other conditions, the greater is one's resistance against all the respiratory mucous membrane infections, from coryza to tuberculosis, not excepting diphtheria and pneumonia. Coryza, like pneumonia, is a house disease, pure and simple.

Prevention: Keep at least six feet from anybody who seems to have a "cold." No open-face sneezing. Treatment: Go to bed. Take a dose of salts. Have a hot mustard foot bath in bed. Fast twenty-four hours, then take a milk and bread diet. If an adult, take thirty grains of hexamethylenamine (the chemical called urotropin or urotropin) dissolved in a glassful of water; if a child from five to fifteen grains, according to age. Sleep in the open air or with all the windows open, avoiding warmed rooms, but sleep warmly covered. Avoid coddling the nose, throat or chest. Wear light weight, knitted woollen underclothing. Don't expect to be well inside of four or five days.

An Appreciation. I wish, writes Mrs. E. W. that your fresh-air sermons could be printed in letters of light on billboards throughout the country. They have done our family worlds of good—although at first I thought you were an extremist.

QUESTIONS AND ANSWERS. Do you consider benzoate of soda injurious when used as a food preservative? Answer—Yes.

Household Hints

HOW TO SERVE POTATOES. Serve potatoes plain boiled only when new. With roast meat serve potatoes mashed, or roasted in the pan with the meat. With fricasseed meats serve baked potatoes. With broiled steak serve creamed potatoes with a crisp fried vegetable like eggplant. With roast pork serve baked potatoes, a green vegetable and a sour apple. With roast chicken serve mashed potatoes, onions and a sour jelly. With roast lamb serve mashed potatoes, green peas or string beans, and a mint sauce.

THINGS WORTH KNOWING. To moisten and cleanse the air of a home heated by hot air, suspend a sponge on each register, by a string about six inches from the floor. Each day moisten the sponges just enough to not drip. Registers in the basement or on side wall can have sponge on outside, or a small one, which can be pushed through. To Seal Coverless Jars—Cut paper big enough to go well down over top and sides, then take white of fresh egg, put on paper, spread on table,

smooth over jar, and tie real tight with string; put more egg on, but be sure there are no wrinkles in paper on edge of jar. Let dry and repeat three times. Tie dry paper over and put away. Use wrapping paper that is not too heavy.

FOR FLOWER LOVERS. Have a hyacinth bulb in the center of a good sized sponge in a dish; keep sponge constantly wet. After this is well started, scatter some grass seed over surface of sponge. Plant slips of begonias and geraniums now. With careful nursing you can have some fine plants for Christmas. A nice plant is always an acceptable and appreciated gift, and it costs practically nothing if raised by yourself.

THE TABLE. Eggs Creamed on Toast—Eggs creamed on toast are economical even when eggs are expensive. Prepare a plain but smooth and thoroughly cooked omelette. Slice the fire heated cooked eggs for a family of seven. Slice into two cups of white sauce, well seasoned, and serve on toast. Carrots With Cream Sauce—Slice thin buttered pan, heat the white of little water as possible without burn. Add butter and salt and serve with a cream sauce flavored with grated nutmeg.

Minced Cranberry sauce.—One quarter of cranberries, minced fine; cover with two cups of cold water and cook half an hour. Add three cups of granulated sugar and cook until sugar is dissolved, then turn into an earthen bowl. Let stand and chill. Honey Cookies—One-half cup butter, three-quarters cup sugar, one egg and one egg yolk, one cup strained honey, grated rind of one lemon, three cups flour, four teaspoons baking powder. Cream butter, sugar and eggs together, add other ingredients. Dough should be soft enough to be easily handled—(so add a little more of necessary). Knead slightly a little at a time. Roll into a thin sheet and cut in cakes. Set the shapes in a buttered pan, heat the white of an egg (left over for that purpose) a little, and use it to brush over the cookies in the pan, then sprinkle on some finely chopped blanched almonds and dredge with granulated sugar.

Bavarian Cream—One-half can shredded pineapple, one-quarter pint cold water, one-half cup sugar, one egg and one egg yolk, one cup strained honey, one-half pint cream. Let sug and pineapple come to boil. Soak gelatine in cold water, then add hot water. Stir until dissolved. Let cool. Whip cream, add gelatine and pineapple. Put in cool place. Stir twice while cooling.

Delicate Ham—Two slices of smoked ham, two tablespoons brown sugar, one tablespoon mustard, two cups milk. Blend sugar and mustard, rub well over both sides of the ham; place in pan; cover with milk and bake in slow oven one hour. Serve with the sauce left in the pan. This is also nice prepared as a roast, taking four hours.

Brown Betty—Apples, Breat crumbs, butter, sugar, cinnamon; pare and slice six apples, butter a baking dish, put layers of apples, sug, cinnamon, butter and crumbs, until you have the desired quantity; add a small cup of raisins, and bake until apples are tender. Serve with or without cream.

Lemon Jelly and Fruit Salad—Two glasses lemon jelly, one orange, two apples, a small stalk of celery, more or less dressing. Orange individual plate put a lettuce leaf, then a slice of lemon jelly. On this put a mixture of orange, apple and celery. Cover with mayonnaise dressing.

NO WOMEN ALLOWED IN MISSIONARY MEETING HELD THIS WEEK IN MILWAUKEE. Milwaukee, Wis., Nov. 11.—Nearly 1,500 persons were here today to attend the opening session of the Milwaukee convention of the Laymen's Missionary movement, which opens tonight with a banquet at Secor's Rite cathedral. H. B. Dickson, former missionary to India, will be the principal speaker. L. F. Bower, chairman of the Milwaukee committee, will be toastmaster.

No women will be admitted to the banquet room or any of the meetings which will be held during the three days' conference, as the idea is only to interest men in the work of the world missions. A special meeting will be held under the auspices of the women missionary societies. Similar meetings will be held in nearly all cities of the United States and will close with a monster missionary congress in Washington, D. C., in April. About fifty Wisconsin laymen are expected to attend the Washington convention.

WHAT ARE NECESSITIES?

What queer things financial standards and the standards by which we determine luxuries and necessities are! We were reading in the newspaper the other day a letter from a woman who was telling how difficult it was to live on eighteen dollars a week. The chief one seemed to be dodging bill collectors and ended plaintively, "And I never had a hat that cost more than twelve dollars."

Never But One Hat That Cost Over Seven Dollars. The visiting lady was greatly amused at that. "I never had, but one hat that cost more than seven," she commented. "That cost ten and I felt fearfully extravagant when I bought it. Yet I don't think my husband ever made less than thirty dollars a week, even when we were first married."

And, as I happen to know, he makes at least double that now. And yet she considered ten dollars for a hat a "fearfully extravagant" sum. That's a study in standards for you. And here is another. She said: "I want a Magazine Subscription All Her Life." A magazine agent was telling me about her work. "I feel very proud of what I've accomplished today," she said. "I've persuaded a man to let his wife have a subscription to my magazine. I happen to know she's been wanting one for years and years—she's a woman I know personally, but he didn't think it was necessary. Poor folks! Hardly! You wouldn't think so if you could see their houses, but he just doesn't consider magazines a necessity or even a justifiable luxury."

As I listened to her I thought of a little house where the bookshelves are overflowing with books, and the tables are thickly littered with delightful disorder of magazines. This house is rather shabby, and so are the master and mistress, and

I heard the mistress say the other day when a friend of hers was bemoaning the increased price of her favorite talcum: "never bought a box of talcum powder in my life."

Well, On, But Too Poor For a Specialist. Not long ago a neighbor's baby was very ill. Thinking to be helpful, we told her the name of a specialist who in a similar illness, saved the life of a friend's baby. "Oh, I guess Dr. L. is all right," she said, naming a general practitioner of moderate prices and no great reputation. And yet they have twice the money of the friend for whose child the specialist in question had been called into consultation. Only they aren't the kind of people who spend their money for that sort of thing.

Nothing reveals anyone's character more surely than the things for which he will and will not spend money. Show me a man's check stubs and expenses and I will tell you what manner of man he is. With My Sister Friends. Question. I have been married several years and have been a faithful wife and mother. My home was happy at first and my four boys and girls have all grown up. I am now except that he is bestowing the love and attentions that belong to me on another. He still supports his family to a certain extent, but all the spare time he spends with his new wife and my child happy he spends elsewhere. It is better for us to try to rekindle the old love or to sever the ties that unite us. Answer. Circumstances greatly alter cases like this. Have you grounds for a divorce with alimony? If not, could you support yourself and child? Of course, it is better to rekindle the old love if you possibly can. Can't you consult some faithful friends who know the exact circumstances?

Heart and Home Problems

Letters May Be Addressed to Mrs. Thompson, in Care of The Gazette

Dear Mrs. Thompson: I am a girl eighteen years old, I fell in love with one of my schoolmates. We have known each other since we were little children. Just recently he left and is going to travel. He said he would come back when I am twenty and will be married. He writes to me nearly every other day. In his letters he is always making plans for him and me in the future. I have tried my best to forget him and to go on with my school work, but when I am with other men I am constantly thinking of him and I never enjoy myself. I know I love him dearly. Do you think he loves me and means everything to me? ISABELLE.

Dear Mrs. Thompson: I am sixteen years old and have known him since I was a baby. My mother and father take him and I think he ought to take me. He is a very nice boy. He would rather go with the boys. He has a girl and he don't think they are nice. He won't take me anywhere, because I am a girl. What can I do to make him take me? BLUE EYES.

You can't make a boy his age do anything. He will outgrow his dislike for girls soon now and will be mighty glad that he has a sister. If you are sweet and attractive, and don't try to force him he will want to take you places of his own accord.

Dear Mrs. Thompson: Is it proper to return money to a little boy who bought ice cream for me? He refused to let me pay for it. C. J. B.

Don't return the money, but something like that. Some candy or something like that.

Dear Mrs. Thompson: (1) Please give me some suggestions about a home thanksgiving wedding—about the decorations. (2) What should be served for a lap supper and how should it be served? THANK YOU.

(1) Decorate with chrysanthemums and ferns or palms. Use flowers about the room and palms as a background for the altar would be very pretty and all that is necessary for a home wedding. (2) Serve a fruit salad with whipped cream on top, chicken or turkey sandwiches and coffee. For a second course have the wedding cakes and ice cream.

A very pretty way to serve a lap supper is on a board about 18 inches by 12, covered with white crepe paper. If there is some color scheme for the decorations, such as pink or yellow, use a lot of crepe paper. Each guest should have a board which serves as a tray.

Dear Mrs. Thompson: I am sixteen years old and very much in love with a gentleman who attends our church. He is about twenty-two years old. (1) Do you think he is too old for me? (2) He goes with an older set than I do. How can I make him know I care for him?

(1) There is a boy about my own age who takes me home from church and sits with me when I go to church at night. Do you think that the gentleman of twenty-two stays away from me because of this? (1) He is too old. ANNABELLE. (2) Chase love and it will flee; indifference more often than love with a boy. Don't give him any idea that you care for him. If he becomes interested in you he will do so without any assistance on your part. (3) He stays so and because you are a child. If he wanted to go with you, grile, no number of boys could keep him away.

FEDERAL INSPECTION OF THE MEAT SUPPLY

Approximately 60 Per Cent. of Animals Now Slaughtered Under Federal Inspection.

Washington, D. C., Nov. 11.—More than 58,000,000 meat animals were slaughtered in establishments under Federal inspection during the fiscal year ending June 30, 1915. Since approximately from 58 to 60 per cent of the animals killed in the country are slaughtered in establishments where Federal inspection is maintained, it appears that about 100,000,000 meat animals are now being killed each year in the United States.

Of the animals subjected to Federal inspection, 299,968 were condemned as unfit for human use, and 644,888 were condemned in part. Thus a little more than 1 1/2 per cent of the animals inspected were condemned either in whole or in part. These figures include only cattle, calves, sheep, goats and swine.

Tuberculosis was the chief cause of the condemnations. More than 32,644 carcasses of cattle and 66,000 carcasses of swine were entirely rejected on account of this disease, and in addition part of 44,400 cattle and 44,000 swine. Hog cholera was responsible for the next largest loss, nearly 102,000 swine being condemned entirely on this account.

Another appropriation for the Federal Meat Inspection Service is now about \$3,375,000, so that the cost to the people would be between 5 and 6 cents per animal if the service was confined entirely to the inspection of the animals and carcasses. In addition, however, great quantities of the meat and products are re-inspected. In this item there was a very considerable increase during the fiscal year, the re-inspection resulting in the condemnation of a total of nearly 19,000,000 pounds of products of one kind or another. Furthermore, 246,000,000 pounds of imported meat or meat products were inspected and more than 2,000,000 pounds condemned or refused entry.

One reason for the great popularity of Gold Dust is its activity. It dissolves quickly in hot or cold water, and purifies in addition to cleaning. Millions of housewives are using Gold Dust regularly for cleaning everything from linoleum to the choicest silver and woodwork. It does not scratch or mar.

From Haulum you'll see Gold Dust causes the dirt to flee. —The Gold Dust Theme. **THE FAIRBANK COMPANY MAKERS** **The Active Cleaner** **GOLD DUST** Five-cent and larger packages for sale everywhere.

Hitherto the only safeguard against this disease has been thorough cooking of all pork and pork products, and those persons who neglect this precaution have always been more or less exposed to the danger. Unless pork is known to have been subjected to refrigeration as above indicated it should be thoroughly cooked. The microscopic examination of pork for the detection of trichinae has been abandoned as the usual methods have proved inefficient.

In this connection it is interesting to note that more swine were slaughtered in the past year in establishments under Federal inspection than ever before. A total of 58,247,958 were inspected at the time of slaughter and approximately 35,900,000 passed for food.

STATE BOARD MEMBER ON CONVICT ROADWORK

MRS. KATHERINE R. WILLIAMS
OF BOARD OF CONTROL TELLS
COUNTY SUPERVISORS OF
THE PLAN.

IDEA'S PROS AND CONS

Speaker Discusses Two Sides of the
Question—Her Talk Is Terse
and to the Point.

Enlightenment on the work and advisability of the employment of convict labor in the building of Rock county highways was given members of the county board of supervisors yesterday afternoon by Mrs. Katherine R. Williams, a member of the state board of control. On the resolution of Supervisor Mar. Sampson, Beloit, a committee was appointed to investigate the proposition and make its report at the adjourned meeting which will open on Jan. 11, as moved, and carried yesterday through without motion.

Incidentally, Mrs. Williams' presence and her discourse on the subject was highly opportune, and aside from giving the board some idea of what has been accomplished through the employment of convict labor, she proved a pleasant and interesting talker.

Board Has Investigated.
"For the past three years," said Mrs. Williams, "the state board of control has been investigating the proposition of convict labor on highways and in state work of other nature. We have been making this phase in all the states which do this."

"The first work attempted by Wisconsin was the building of three miles of highway between the city of Wausau and Chester. This was done under the supervision of the commissioner of highways and in its report the state highway commission says 'the best which has been made to date in the state. We have also made the streets in the city of Wausau.'"

"Our camps have the necessary machinery, a competent management, and we have all the essentials for good road making. We have demonstrated that we can do this right thing."

Mrs. Williams made a plea for the county board to investigate the work and its nature as done under the convict labor plan. "We take the conviction," she said, "and furnish everything—men, machinery, etc. The rate, too, is low—\$1.50 per day per man. We arrange our work to cooperate with the state highway commission, and also with the county commissioners."

Refutes Objections.
Relative to the objections which have been more or less prevalent throughout the state in regard to 'jailbirds' as they have been termed editorially and in strong, outspoken terms by those prejudiced against the innovation, doing road work, Mrs. Williams said: "People of some communities object to convicts doing the work. We have found from our experience, however, that these men have never made unavailing demonstrations nor have they offered to leave the camp or molest anyone. In all the time the board of control has been using convicts in such work there have been only three men who have been sent to the state penitentiary."

"We are careful to send the right men out and only those who have undergone previous tests of faithfulness are permitted to do this work. At the present time there is a gang at Tomahawk Lake erecting the state tuberculosis camp; another gang of thirty-five men is at work in Kansasville, in the county of Racine county, in Fond du Lac county there is another party engaged in road building."

Honor Men Employed.
"They do not escape," she said. "The men up at Tomahawk Lake are in the woods, yet none have left. We find trouble sometimes and when the trouble comes it is always outsiders who are to blame. Occasions have arisen where these outsiders have passed liquor to the convicts, many of whom are really not criminals, but men who are victims of circumstances and drink. We have a downward to the extent that a prison term is necessary for their personal benefit and reform."

No Labor Competition.
"Answering the objection that convict labor was 'scab' labor," Mrs. Williams related that the state board had no desire to compete with labor organization in any county. If labor was so much in the excess that men of the county were willing to work for lower wages, the state board had nothing to say. It behooved the county board to act as they saw fit."

The general idea and plan of the board of control in permitting men, sentenced to prison, to go out in camps to do such work lay in the fact that the men, by doing this work, would be able to support their families, and in a way similar to the methods employed at the county farm in the employment of inmates to work

TODAY'S BEAUTY AIDS.
To clear up and whiten the skin and secure that charm of pluck and white youthful freshness—so much desired by all women you will find it far safer to rely upon a good face lotion rather than powder. To get rid of that shiny and muddy appearance in your complexion, dissolve four ounces of spumax in one-half pint hot water, and add two teaspoonfuls glycerine. Apply this to your face, neck and arms, rubbing gently until dry. This lotion does not show or rub off like powder and is much better. It is splendid for removing tan, freckles, pimples and sallowness. You can make a delightful shampoo for a very trifling cost if you get from your druggist a package of canthrox and dissolve a teaspoonful in a cup of hot water. Pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white foam that thoroughly dissolves and removes all dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a freshness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—Advertisement.

the fields and gather the crops. Virtually both ideas are similar. It is a business proposition, said Mrs. Williams, and anything the county can do itself through its own charges will only serve to lower taxes. Incidentally, anything the state can do to help the county to lower expenditures is also going to lower taxes.

Mrs. Williams, following her discourse, laid herself open to questions from the county supervisors regarding the convict labor idea. Numerous were asked and satisfactory replies were given in all cases.

Evansville News

Evansville, Nov. 11.—The members of the choir of St. Paul's church enjoyed in honor of Miss Antoinette Huebsch Tuesday evening at the home of Mrs. J. M. Bodenberger, about twenty being present. The house was artistically decorated with streamers and bunting, and dainty refreshments were served. Miss Pauline Garry furnished a number of exquisite piano solos, the remainder of the evening being spent in "toasts" to the bride and bridesmaids. Miss Pauline Garry, in behalf of those present, presented Miss Huebsch with a handsome leather and oak rocking chair.

The members of the Young Ladies' Missionary society of the Congregational church met yesterday afternoon at the home of Mrs. Will Baldwin. The report of the financial committee on the results of the banquet given for the Commercial club was very gratifying.

The Reading Circle met Tuesday night at the Congregational church, about twenty being present. The evening's study consisted of the reading of "Three Men in a Boat." This year's work is under the instruction of Mr. and Mrs. R. D. Hartley.

The Tuesday Evening club of the Methodist church were pleasantly entertained this week by Mr. and Mrs. O. S. Shepard, about twenty being present.

experience in the state office is probably the best informed man in the state on the present status of high schools, and no doubt his visit to the high school of tomorrow will have a powerful influence upon our next step in improving the present conditions. Following Mr. Shumway and dress there will be an informal discussion on the topic "What are the present needs of our high school?" led by Professor Waddell, F. A. Baker, W. B. Green and others.

Everyone is cordially invited to attend this meeting and to participate in its discussion.

Edgerton News

SHURLEY SHUMWAY AND
SILAS HURD UNITED

Edgerton, Nov. 11.—Last evening at 8 o'clock at the home of Mr. and Mrs. A. W. Shumway, Rev. Schoenfeldt performed the ceremony that united in marriage Miss Shurley Shumway and Silas Hurd. Miss Shumway is the daughter of Mr. and Mrs. A. W. Shumway and is a graduate of the Edgerton High school and of the White House Normal. For two years she taught in the public schools at Stoughton, and made many friends at Stoughton, who join with her Edgerton friends in wishing her a long and happy married life. Silas Hurd is the son of Mr. and Mrs. John Hurd, who live on a farm near Indian Ford. He comes from an old and honored family of this community, his grandfather being one of the pioneer settlers of Rock county. The Shumway home was beautifully decorated for the occasion and only the immediate relatives were present at the ceremony. The bride and groom departed on their honeymoon trip in an automobile for parts unknown to their friends. They will make their future home on the Hurd farm, where Silas will manage the farming interests there.

Mrs. F. Trevonrah and Mrs. W. Frazier of Footville were guests at the home of Mr. and Mrs. Richard Trevonrah yesterday.

Mrs. C. M. Peck of Spring Green arrived in the city yesterday and will spend the winter with her sister, Mrs. Lockwood.

Mrs. Sam Peterson and daughter of Janesville called on Edgerton friends yesterday.

Twenty cars of sheep from Pendleton, Oregon, arrived at the feed yards last evening.

Mrs. Thos. Millington and son, Fredrick, and Mr. Ed. Grassman went to Rockland Center yesterday to visit relatives.

John Oleson of Christiana township is lodged in jail at Madison, charged with assault and battery upon his rival, Mr. North, of Albion Prairie. Oleson used a bottle on North and the result was serious facial damage to the latter. Oleson claims that he had previous claims on the young lady upon whom North called and sought to establish his claim.

George Hatch of Janesville was a business caller in the city yesterday.

Mrs. W. J. Borgia has gone to Burlington for a few days' visit with relatives.

Postmaster Hoen has been assured by the Post office department at Washington that city delivery service will be established in the city when eighty-five per cent of the patrons of the office have provided proper receptacles for the receipt of mail matter at their front doors.

Miss Clara Jensen has gone to Broadhead for a visit at the home of her friend, Mrs. Lawrence Johnson, for a few days.

The Monument Circle met today with Mrs. Milo Collins and a pleasant afternoon was spent.

E. S. Hatch returned last evening from a trip to his home in Vermont and other points in the east. He reports a pleasant trip.

Mrs. John O'Brien returned to Madison last evening after a few days' visit at the home of her parents, Mr. and Mrs. P. McIntire.

Gov. Philipp and party motored to town today and from all appearances are in quest of feather game.

The Y. M. C. A. at Edgerton will open the activities for the winter with a banquet at the hall Friday evening, Nov. 12. It is earnestly requested that all members be present.

Mrs. Chester Johnson and Miss Margaret Ellingson are Madison callers today.

Mr. and Mrs. H. S. McGiffin of Sparta are guests of relatives in the city for a few days.

DANE COUNTY BOARD CONSIDERS WORK FARM
Madison, Wis., Nov. 11.—The Dane county board which met last night has before it for consideration a most unique plan for the punishment of wife deserters. District Attorney Harry Southoff is advocating a plan for the purchase of a farm and the employment of these offenders on the farm, the wages of the men to go to those dependent upon them for support. The plan has some of the warmest friends and some who believe that such a plan is farcical. This wide difference of opinion makes the contest before the board all the more interesting.

There is also much opposition before the board to the making of an appropriation under the mothers' pension law, which was made compulsory by the last legislature.

BACK TO NATURE STUNT IN ADAM AND EVE STYLES TRIED IN MAINE WOODS
(SPECIAL TO THE GAZETTE)
Bangor, Me., Nov. 11.—Young Mr. and Mrs. Walter F. Estes, equipped only with pink tickets and determination, have gone back to nature for two months' vacation. They are around Deadwater, Moosehead lake on the upper Kennebec.

The couple took neither food nor weapons. Estes says he can make fire with flint, kill a deer with a stone or club or bow and arrow, have plenty of food and make shelter and covering from the hides.

Estes, hunter, trapper, guide, ward-en and herb gatherer, is familiar with everything that walks, swims or flies in the state of Maine. He and Mrs. Estes said they want to show the world that folks can return to the primitive and prosper. Estes is 26 years old, as is his wife.
